Ghettowitchez is a web-based, multi-disciplinary platform dedicated to connect and promote upcoming DJs, producers, visual artists, and performers around Latin America.

Our work started in 2019 with the creation of our SoundCloud publishing channel and our series of underground parties “Caravana Sonora” “la ghettofabrica” and “Miscellanea mágica” that ambitiously looked to enrich the party and musical scenes in San Salvador, Guatemala City, and Washington DC with new and fresh sounds by guests like La Sokko (SV), Neurokill (Mx.), K. hole Kardashian (US/CR), sisterybroder (CO), Sister Natty (SV), DJ Guapis (Mx.) DJ Glen Martin (SV), Terror puppy (GT), SHIT (ARG), Reburra (SV), la Puti Claus (SV), and others.

In 2020, we launched the “Santeria sessions” in collaboration with Wide Radio (UK) and the “La Ghattoweb” our first live set series for youtube produced in Mexico City with no space. This year we are looking forward to collaborating with other independent and upcoming artists to keep our music community diverse, alive, and growing.
