Bio:

Jamira Estrada (*1998 Chur) works as a musician and dj with mexican and italian heritage, based in Zurich, Switzerland. Curating her own nights at the off-space Cuadro22 in Chur since four years, her dancefloor selection still embodies vividly the search for an invigorating collective stasis. Currently enrolled in her first year of Bachelor in electroacoustic composition, she is questioning processes on inventive possibilities of sonic effects. Deeply inspired by mythical fantasy worlds and organic organisms, as they cope with existential themes such as love and the struggle for survival, she resolves her work around inclusive spaces. This brought her to work on a wide spectrum of projects, such as giving DJ workshops addressing femme, intersex and non-binary individuals and collaborating with various artists.
